clinical, school, group, and family settings. Designed for both students and practitioners, the text addresses the theoretical bases for these approaches and provides in-depth, practical guidance for their use. The book describes how directive play therapies differ from nondirective therapies and illustrates best practices in using directive techniques. It examines such diverse approaches as cognitive behavioral, solution focused, sensorimotor, and the use of creative arts in play therapy. Each approach is covered in terms of its theoretical foundation,

This volume reflects the multiplicity of perspectives in the theory and practice of creativity, while it is broadly accepted that the dynamism of humanity's responses to our evolving scientific, social and environmental needs depends on our creativity. It examines the central issues that animate the themes of creativity, talent development and excellence in schools and in the workplace, as well as analysing their related socio-cultural activities and processes. Forged in the

workshops of a number of conferences and symposia, this collection represents in itself a creative partnership between European and Asian academics. Thus it includes contributions from various cultural and organizational settings, as well as chapters that enhance our conceptual models of creativity in both learning and teaching. The contributing authors recognize that exploring the nature of creativity necessitates a new paradigm in research and praxis in which integration, collaboration, and the synthesis of knowledge and expertise are key factors.
