Dynamic Business Law: The Essentials is appropriate for the one-semester Business Law course. It contains the basics of business law but does not get bogged down in the kind of details that are more appropriate in an upper-level law class. The text provides an examination of the basic questions, concepts, and legal rules of business law. Emphasis on the BUSINESS in business law. Dynamic Business Law: The Essentials emphasizes the tie of legal issues back to the core business curriculum. This will help both students and faculty. Faculty need to know how this is integrated as they are constantly □defending□ the inclusion of this course in the business curriculum. And students need to understand how the concepts tie to their future business careers. Emphasis on TEACHING. Many professors teaching this course are attorneys first and academics second. They do not have a lot of time to prepare or think about how to apply this information effectively for their business students. Dynamic Business Law: The Essentials contains a helpful instructor's manual, particularly for the many adjuncts teaching this course. Emphasis on CRITICAL THINKING. Neil Browne, one of the co-authors of this text, has written a successful text on critical thinking. His framework is included in Dynamic Business Law: The Essentials as well □ to help students learn how to frame and

reframe a question/issue. Critical thinking questions are also included at the end of each case, to tie in this component even further.

Promotes the theory that superior customer service leads to a superior business organisation

This book highlights research-based case studies in order to analyze the wealth created in the world's largest mergers and acquisitions (M&A). This book encourages cross fertilization in theory building and applied research by examining the links between M&A and wealth creation. Each chapter covers a specific case and offers a focused clinical examination of the entire lifecycle of M&A for each mega deal, exploring all aspects of the process. The success of M&A are analyzed through two main research approaches: event studies and financial performance analyses. The event studies examine the abnormal returns to the shareholders in the period surrounding the merger announcement. The financial performance studies examine the reported financial results of acquirers before and after the acquisition to see whether financial performance has improved after merger. The relation between method of payment, premium paid and stock returns are examined. The chapters also discuss synergies of the deal-cost and revenue synergies. Mergers and acquisitions represent a major force in modern financial and economic environment. Whether in times of boom or bust, M&As have emerged as a compelling strategy for growth. The biggest companies of modern day have all taken form through a series of restructuring activities like multiple mergers. Acquisitions continue to remain as the quickest route companies take to operate in new markets and to add new capabilities and resources. The cases covered in this book highlights high profile M&As and focuses on the wealth creation for shareholders of acquirer and target firms as a financial assessment of the merger's success. The book should be useful for finance professionals, corporate planners, strategists, and managers.

This 2009 Article IV Consultation focuses on euro area policies. The euro area remains in recession, with signs of improvement yet to evolve into a recovery. The large drop in financial wealth, an associated increase in private savings, tight financing conditions, and the adjustment of global imbalances are key drivers of the economic decline. Executive Directors have welcomed the broad arsenal of macroeconomic policies and financial sector interventions deployed by euro area authorities and Member States to address the crisis.
