50 plus one Questions When Buying a Car is the perfect self-help guide for every potential car buyer, whether you are buying new or pre-owned. How do you tell if a used car was in an accident or hurricane? What features on a new car provide good values? Are the miles per gallon as advertised really true? Buying a car is often the second largest purchase you are likely to make. This book could save you hundreds of thousands of dollars over the many cars you will buy in your lifetime. Learn how to compare various makes and models of cars; which cars hold their value the longest?; should you have a used car inspected before buying?; is it better to buy used from an individual or dealer?; are places like www.cars.com better than the local dealer?; should you buy a car after the lease is finished; and more.

The Model T Ford was the first mass produced car and the price because of this was so low that for the first time motorcars were in the hands of people who had little or no engineering skills. This is a guide written in 1916 aiming at explaining the mechanics of a motor car to a lay audience. Many of the earliest books, particularly those dating back to the 1900s and before, are now extremely scarce and increasingly expensive. We are republishing these classic works in affordable, high quality, modern editions, using the original text and artwork.
