Marocco 1971 è una tappa decisiva dell'apprendistato di Gabriele Basilico. Il volume contiene un saggio di Michele Smargiassi che si sofferma su Basilico come "grande esploratore dei generi fotografici", un breve saggio di Bernard Millet e una testimonianza di Giovanna Calvenzi che ricostruisce il clima e gli scopi di quell'avventura.

'Could one write a book based on one's diaries over thirty years? I certainly have enough material,'

wrote Barbara Pym. This book, selected from the diaries, notebooks and letters of this much loved novelist to form a continuous narrative, is indeed a unique autobiography, providing a privileged insight into a writer's mind. Philip Larkin wrote that Barbara Pym had 'a unique eye and ear for the small poignancies of everyday life'. Her autobiography amply demonstrates this, as it traces her life from exuberant times at Oxford in the thirties, through the war when, scarred by an unhappy love affair, she joined the WRNS, to the published novelist of the fifties. It also deals with the long period when her novels were out of fashion and no one would publish them, her rediscovering in 1977, and the triumphant success of her last few years. It is now possible to describe a place, situation or person as 'very Barbara Pym'. *A Very Private Eye*, at once funny and moving, shows the variety and depth of her own story.

'Forget Me Not' explores the relationship between photography and memory and shows how ordinary people have sought to strengthen the emotional appeal of photographs, primarily by embellishing them to create strange and often beautiful hybrid objects.

Essays on photography and the medium's history and evolving identity. In *Each Wild Idea*, Geoffrey Batchen explores a wide range of photographic subjects, from the timing of the medium's invention to the various implications of cyberculture. Along the way, he reflects on contemporary art photography, the role of the vernacular in photography's history, and the Australianness of Australian photography. The essays all focus on a consideration of specific photographs--from a humble combination of baby photos and bronzed booties to a masterwork by Alfred Stieglitz. Although Batchen views each photograph within the context of broader social and political forces, he also engages its own distinctive formal attributes. In short, he sees photography as something that is simultaneously material and cultural. In an effort to evoke the lived experience of history, he frequently relies on sheer description as the mode of analysis, insisting that we look right at--rather than beyond--the photograph being discussed. A constant theme throughout the book is the question of photography's past, present, and future identity.

*Aashi Rani*, the unrivalled number one of Bombay cinema, seems intent on ruining her career and her life blinded by a scorching passion that threatens to destroy everything she has attained.
