Nature + Journal = Happy. There are so many studies proving a real connection between nature and happiness. This one, in particular, caught my eye: The mental health organization, MIND, published a study that found depression was reduced in 71% of participants after taking a walk in nature.

How To Start A Nature Journal—A Beginners Guide

Handbook of Nature Study by Anna Comstock This book has pretty much become THE resource for nature educators and can keep one busy in the wilds for decades. The contents include plenty of discussion and identification tips along with questions and prompts to heighten observation and study.

Nature Journaling for Kids: Nature Study Resources—

OBJECTIVE: To learn how to nurture a child's natural love of nature and how to give them eyes to 'see'. The purpose of Nature Study is to help a child feel at home in Nature. Nature Study is emotional -- Science is intellectual. They're two completely different approaches. In time, heart and mind will work together, but heart work comes first.
