This volume provides reviews and details of the quality, safety and efficacy for some of the top-selling botanicals worldwide, including black cohosh, chamomile, comfrey, echinacea, garlic, ginkgo, ginseng, kava, milk thistle, St John's wort and valerian. The work was written based

on a systematic review
of the scientific
literature from
1975-2000.; Each review
includes a brief
introduction, a section
on quality including a
definition of the crude
drug, geographical
distribution, and a
listing of the major
chemical constituents.
The safety and efficacy
sections summarize the

medical uses,
pharmacology,
contraindications,
warnings, precautions,
adverse reactions, dose
and dosage forms. The
safety and efficacy
sections were written for

which clinical uses are
supported by clinical
data, without having to
