There are different ways of protecting steel structures from
corrosion. ISO 12944 deals with protection by paint systems and
covers, in the various parts, all features that are important in
achieving adequate corrosion protection. Additional or other measures
are possible but require particular agreement between the interested

~~Iso 12944 4 Scribd - krausypoo.com~~

The ISO standards sub-committee TC35 / SC14 was tasked with revising the international standard ISO 12944 'Paints and varnishes -Corrosion protection of steel structures by protective paint systems' and they completed their work in the Autumn of 2017. The new version of 12944 is composed of nine separate parts as follows:

~~Industrial Coatings Information Note - SGS UK~~

What is ISO 12944 and how is the standard used? o The ISO organisation and standards in general were founded with the idea of answering a fundamental question: "What's the best way of doing this?" o The ISO 12944 standard is a series of instructions intended to guide the professional to the required corrosion protection.
