and architecture, literature, philosophy, and music--without overwhelming them with detail. Each of the text's fifteen chapters is centered on a key idea related to the period being discussed, and contains a series of valuable pedagogical features including timelines, high-quality maps, and boxed material. Each chapter also takes a unique cultural or historical point of view, often through primary sources, the stylistic relationship between two or more images and ideas or between text and image, and contemporaneous non-Western cultural landmarks and cross-cultural influences. In this edition, each chapter opens with “ A First Look ” at a landmark work that illustrates the key idea of the chapter and acts as a cultural guidepost to

creative legacy. LANDMARKS is unique in several ways: -It is interdisciplinary: it explores the interrelationship of various modes of expression - art, music, literature - as they work to create, define, and reflect the unique culture of a given time and place. -It is thematic: each chapter advances a key idea, presented in the chapter title and explained in the introductory paragraph. The key idea offers a context for individual landmarks as they unfold chronologically. For instance, Chapter 1 (“ Origins: The First Civilizations ”) surveys our earliest cultures, emphasizing human strategies for survival and communal life; Chapter 14 (“ Modernism: The Assault on Tradition ”) considers the radical rejection of

conventional values and styles that revolutionized early twentieth-century culture. -It is selective: some landmarks have been chosen for their universality, some for their singular beauty, and some for their iconic or symbolic value. Certain landmarks - the Statue of Liberty, the Mona Lisa, the sonnets of Shakespeare - meet more than one of these criteria. The author ' s choice of landmarks may differ from those of other individuals, and readers may wish to add landmarks of their own. ** Available exclusively on McGraw-Hill Create®, the Traditions Collection contains western and non-western readings as well as ancient and contemporary offerings, hand selected from a number of different disciplines, such as literature, philosophy,
