The Rapidan Tu
to construct your Furled
Leader 46" 20" Twist stop
point 9 1/2" 59" 33" • • All
measurements are made from
Hook A Timber board (The
length of which is
determined by how long you
want to make the leader)

Online Library Leaders And Furled Leader Construction

This example would require a board of a minimum of 4 1/2 feet.

How To - Make A Furled
Leader - SLIDELEGEND.COM

A furled leader is a tapered leader made by furling

Online Library Leaders And Furled Leader Construction

(twisting) multiple lines together similar to rope making. The leader is a transition between your fly line and fine tippet which attaches to your fly.

Tapered furled leaders are extremely flexible, have

Online Library Leaders And Furled Leader Construction

little stretch and very strong.

What is a Furled Leader for Fly Fishing? | Guide
Recommended

Furled leaders can really help punch flies out to your

Online Library Leaders And Furled Leader Construction

target. Since the taper of the fly line has a more natural transition into a furled butt section than solid, stiff mono or flouro, an average to mediocre cast will allow for greater energy transfer further down

Online Library Leaders And Furled Leader Construction

The leader. This translates
into more casts
straightening out.

Furled Leader - 4ft Super
Delicate - Barbless Flies

But there are some distinct
advantages. A furled leader

Online Library Leaders And Furled Leader Construction

tapers smoothly from butt to tippet. Additionally, a furled leader has no memory (at all). It is as limp as a dishrag. In saltwater fly fishing, folks who swear by single-strand monofilament leaders with multiple

Online Library Leaders And Furled Leader Construction

Complex knots might be convinced that a furled leader is simply out of the question.

A Case for the Furled Leader
| MidCurrent

Furled leaders come with a

Online Library Leaders And Furled Leader Construction

Loop in the end. That is in their very nature...the way in which they are manufactured dictates that there will always be a loop in the thick end. The other thing about them, is that they are inclined to become

Online Library Leaders And Furled Leader Construction

waterlogged and need
changing out.

Smooth connections and
furled leaders | Truttablog
Furled leaders have no
memory so they gently turn a
fly over and lie in a

Online Library Leaders And Furled Leader Construction

straight line. Just add to your fly line with a loop to loop connection and then add a tippet of your choice.

There are no coils to contend with as there are with non-furled nylon leaders; these tapered

Online Library Leaders And Furled Leader Construction

Furled leaders are straight
'straight out of the
packet', and there is no
spray on lift off.

Tapered Furled Leaders -
LoopyLeaders.co.uk

A braided leader is produced

Online Library Leaders And Furled Leader Construction

The Rapidan Tu
by braiding (also called
plaiting) three or more
strands together. Three
strands result in a flat
ribbon line while more
strands will result in a
line that is more round.
Braiding produces a leader

Online Library Leaders And Furled Leader Construction
