Find out all you ever wanted to know about insects when the Cat and company get an up-close view of life as a bug. Kids will learn how insects - from the spittlebug to the honeybee to the moth - see, smell, communicate, and pollinate, as well as sometimes pester and amaze and generally make life better for us humans. JoseDelAguila, April 26, 2010

Find out all you ever wanted to know about insects when the Cat and company get an up-close view of life as a bug. Kids will learn how insects -- from the spittlebug to the honeybee to the moth -- see, smell, communicate, and pollinate, as well as sometimes pester and amaze and generally make life better for us humans. Catch the bug buzz with the Cat in the Hat and all his friends!

Rhyming text and illustrations depict the Cat in the Hat and his friends exploring the many different kinds of insects, their characteristics, and behavior.

Rhino-B is a brash, but sweet guy. Stag-B is a calm and scholarly adventurer. Together these two young beetles make up the Bug Boys, best friends who spend their time exploring the world of Bug Village and beyond, as well as their own - sometimes confusing and complicated - thoughts and feelings. In their first adventure, the Bug Boys travel through spooky caves, work with a spider to found a library, save their town's popular honey supply from extinction, and even make friends with ferocious termites! What challenges will these two earnest beetles face? Whatever it is, you can be sure that Rhino-B

and Stag-B will face it together -- with the power of friendship behind them.

The mere sneeze of a bug triggers a chain reaction involving, among others, cows, turtles, policemen, and an entire circus parade.

The Cat in the Hat introduces beginning readers to maps—the different kinds (city, state, world, topographic, temperature, terrain, etc.); their formats (flat, globe, atlas, puzzle); the tools we use to read them (symbols, scales, grids, compasses); and funny facts about the places they show us (“Michigan looks like a scarf and a mitten! Louisiana looks like a chair you can sit in!”).

The Cat in the Hat joins forces with the Partnership for a Healthier America! In this newly revised edition—with 16 pages of bonus materials—the Cat in the Hat takes young readers to a Seussian Spa where they learn the basics of healthy living. Updated with the assistance of the Partnership for a Healthier America, the Cat explains the importance of eating right (based on the latest USDA MyPlate recommendations); staying active; getting enough sleep; handwashing; brushing and flossing; wearing protective gear when playing sports—even the best way to sneeze when you don't have a tissue handy! The 16 pages of newly added backmatter include simple, fun suggestions for children to increase their activity throughout the day, plus 8 kid-friendly, healthy recipes for parents to prepare for their hungry broods. An ideal choice for supporting Common Core Standards and fans of the hit PBS Kids television show *The Cat in the Hat Knows a Lot About That!*—this is a book that supports healthy bodies AND healthy minds!

THE CAT IN the Hat puts to rest any notion that money grows on trees in this super simple look at numismatics, the study of money and its history. Beginning with the ancient practice of bartering, the Cat explains various forms of money used in different cultures, from shells, feathers, leather, and jade to metal ingots to coins (including the smallest—the BB-like Indian fanam—and the largest—the 8-foot-wide, ship-sinking limestone ones from the Islands of Yap!), to the current king of currency, paper. Also included is a look at banking, from the use of temples as the first banks to the concept of gaining or paying interest, and a step-by-step guide to minting coins. A fascinating introduction is bound to change young reader's appreciation for change!

Explores the types of bugs that can be found in everyday life, including ladybugs, spiders, grasshoppers, and crickets, and presents facts on each.--]cSource other than the Library of Congress.

The Cat in the Hat takes Sally and Dick for a ride through the human body where they visit the right and left sides of the brain, meet the Feletons from far off Fadin (when they stand in the sun you can see through their skin), scuba dive through the blood system, follow food and water through the digestive tract, and a whole lot more!

The Cat in the Hat, Sally, and Dick take an undersea voyage aboard the S.S. Undersea Glubber! Traveling down from the Sunny Zone to the Dark Zone to the Trench at the bottom, Captain Cat and his crew get up close and personal with the different life forms found at each level of the ocean. Along the way, they meet sharks, jellyfish, dolphins, manatees, whales, and sea cucumbers, to name just a few!
