The economy should work for everyone, not just billionaires, hedge funds and investment banks. Excessive rent-seeking (gaining wealth from from financial speculation and intellectual property) increases inequality. In the short to medium term, we seek to rebalance the economy to reduce this by ensuring wage income is closer to rentier income.

Political economy was the original term for the study of production, the acts of buying and selling, and their relationships to laws, customs and government. It developed in the 17th century as the study of the economies of states which placed the theory of property in the theory of government. Some political economists proposed the labour theory of value, according to which labour is the real source of value. Many political economists also looked at the accelerating development of technology, w
