Storm clouds and dust can be seen in the sky above a woman as she walks at dusk along Mollymook Beach ... A farmer herds his cattle near the outback Queensland town of Aramac.

Dusk features some of the most masculine, perfectly and naturally built, handsome and sensual naked men within a stunning array of hauntingly beautiful and raw outback settings. Paul Freeman has established himself at the pinnacle of his craft, not only as a photographer, but as a visual poet and artist eulogizing as he captures the spirit of the rugged yet sensitive Australian male in all his physical glory. His genius is to find the right men to photograph and then tell an enthralling story with his vision from behind the camera. From the quality of the compositions and the lighting through to the texture of the outback locations, these are some of the most perfectly executed and delightful photographs in any collection, and set a tone of sophistication so rarely achieved in books of the male nude.

Parts of the Australian Outback are amongst the world's oldest land surfaces - from remote deserts, vast salt lakes, red dust plains & subtropical savannahs - an abundance of wildlife call these landscapes home and have adapted to survive in the harsh environment.

"The fourth book in the series by renowned photographer Paul Freeman, which studies men and masculinity in rugged outdoor and rustic farm settings. In this book Freeman uses the Australian bush and its' changing moods to explore his male aesthetic, and to style and weather his subjects"--Jacket.

A tasteful collection of b/w photographs,celebrating the male nude..

With the focus on the Aussie blue-collar worker, 'Bondi Work' continues Freeman's fascination with capturing what is intrinsic to male beauty. Following close on the heels of 'Bondi Urban', which portrayed lads of a surf and beach culture, Freeman's choice of models, the way he directs them into sharing intimate moments, his trademark use of dramatic lighting to elevate simple compositions, and his use of color, again infuses this work with a painterly romanticism. He uses his fellow countrymen (Australia) to show us the virile attitude of the untamed, knows how to make the partially clothed form even more sensuous than the fully nude form, and creates photographs that are well conceived and executed and presented in a superb format.

The fourth book in the Bondi series from photographer Paul Freeman

A coming-of-old-age novel from the Hugo Award-winning author of When Gravity Falls. "Engaging . . . spry, inventive, and often quite funny" (Kirkus Reviews). In HEROICS, Irene--like everyone in the future--struggles with boredom. Food, clothing, and all the necessities of human life have been taken care of. But, what does that leave of life itself? At eighty-two, Irene sets out on a pilgrimage across America hoping to find the answer. Along the way, she becomes transformed, both physically and by her interactions with other civilians all trying to cope with this new world. Filled with wry humor and fantastic symbolism, HEROICS mixes adventure and philosophy in a way both engrossing and entertaining. Of this book, friend and fellow writer Harlan Ellison said, "It is the best Effinger yet...and for those of us who have been watching with amazement that is about as rich a compliment as you can expect from other envious authors. Damn him, he's good!" George Alec Effinger was a true master of satirical Science Fiction. Before his death in 2002, Effinger was a prolific novelist and short story writer, earning acclaim from his fans and peers, including a Nebula Award nomination for his first book WHAT ENTROPHY MEANS TO ME. In HEROICS, he revisits some of the themes and characters of that first book for startling, funny and poignant results.

This stunning volume is the follow-up to the very successful Bondi Classic the first book in the Bondi Series by Paul Freeman. At Bondi in Sydney, Australia, the eastward growth of the city is halted by the Pacific Ocean. Despite the unappealing architecture of the area, it has developed among the warm climate and natural wonders a free-spirited subculture of young men. It is a mecca for young men from all over the world. Paul Freeman's work captures that free-wheeling and devil-may-care attitude of this current youth culture.

A book of male nude portraits shot in the great outdoors.
