Brian Mulligan's concept of mobilizations with movement (MWMS) in the extremities and sustained natural apophyseal glides (SNAGS) in the spine were revolutionary due to this concurrent application of both therapist applied forces and patient generated movement. With the concept rule of "pain free, instant and long lasting" underpinning all clinical reasoning, no other form of manual ...

### Mulligan Concept » Mulligan Concept - Manual Therapy

The Mulligan concept uses specifically directed mobilisations of the spine whilst it is in a weight bearing position. The aim of these mobilisations is to increase the pain free range of movement of the spine and affected limbs. The mobilisations are repeated until this outcome is achieved. The Mulligan concept has the following benefits:
