The Churn is an additional book to the Expanse series, set before the series' beginnings and chronicling some events in the life of one of my favorite characters, Amos Burton. Amos, or Jimmy, is a low level thug with a lot of issues and a broken moral compass. And that is what makes him so compelling.

The River Churn is a tributary of the River Thames in central England. It rises at Seven Springs in Gloucestershire and flows south for approximately 37.3 km (23.2 mi) to meet the Thames at Cricklade in Wiltshire. Its length from its source to confluence with the Thames is greater than that of the Thames from Thames Head, though the Churn is regarded as a tributary rather than the main river.

humanity's home planets. Ilus, the first human colony on this vast new frontier, is being born in blood and fire. Independent settlers stand against the overwhelming power of a corporate colony ship with only their determination, courage, and the skills learned in the long wars of home. Innocent scientists are slaughtered as they try to survey a new and alien world. The struggle on Ilus threatens to spread all the way back to Earth. James Holden and the crew of his one small ship are sent to make peace in the midst of war and sense in the midst of chaos. But the more he looks at it, the more Holden thinks the mission was meant to fail. And the whispers of a dead man remind him that the great galactic civilization that once stood on this land is gone. Much of human history has played itself out along the rim of the Indian Ocean. In a first-of-its-kind attempt, bestselling author Sanjeev Sanyal tells the history of this significant region, which stretches across East Africa, the Middle East and the Indian subcontinent to South East Asia and Australia. He narrates a fascinating tale about the earliest human migrations out of Africa and the great cities of Angkor and Vijayanagar; medieval Arab empires and Chinese 'treasure fleets'; the rivalries of European colonial powers and a new dawn. Sanjeev explores remote archaeological sites, ancient inscriptions, maritime trading networks and half-forgotten oral histories, to make exciting revelations. In his inimitable style, he draws upon

Most change efforts fail because most change methods are built to deal with single challenges in a nice, neat, linear way. But leaders know that today, pressures for change don't come at you one at a time; they come all at once. It's like riding a roller coaster: sudden drops, jarring turns, anxious climbs into the unknown. Drawing on his years of experience at the Center for Creative Leadership and Columbia University, Bill Pasmore offers a four-part model and four mindsets that allow leaders to deal with multiple changes simultaneously without drowning in the churn. The first step, Pasmore says, is to Discover which external pressures for change are the most necessary to address. The key

here is to think fewer—step away from the buffet of possibilities and pinpoint the highest-impact options. Then you need to Decide how many change efforts your organization can handle. Here the mindset is to think scarcer—you have only so many people and so many resources, so how do you best use them? Once you've figured that out, it's time to Do—and here you want to think faster. Streamline processes and engage in rapid prototyping so you can learn quickly and cost-effectively. The last step is to Discern what worked and what didn't, so think smarter—develop metrics, identify trends, and make sure learnings are disseminated throughout the organization. For each stage of the process, Pasmore offers detailed advice, practical tools, and real-world examples. This book is a
